## What is the Alliance for Response?

The Alliance for Response is designed to link key cultural heritage and emergency response representatives, leading to new partnerships. Alliance for Response fosters cooperation among cultural organizations, influences local planning efforts, and enhances the protection of cultural and historic resources. The Alliance for Response network is being organized in Oklahoma, as our state is known as a region with a wealth of cultural resources threatened by tornados, flooding, earthquakes and other natural disasters.

Oklahoma is planning a free Alliance for Response Forum on October 25, 2019 from 10:00am - 3:00pm at the Oklahoma History Center in Oklahoma City. The Forum is being planned as an opportunity where museums, libraries and archives can reach out and form partnerships with their local emergency response representatives. The Forum provides an opportunity for cultural heritage stewards, from directors to curators to conservators and more, to exchange important information with and get to know their community's firefighters, police, and local, state, and federal emergency managers.

The Alliance for Response is in partnership with the Oklahoma Museums Association, Oklahoma Department of Libraries, Oklahoma Archivists Association, Oklahoma Historical Records Advisory Board and Oklahoma History Center in cooperation with the Foundation for Advancement in Conservation (FAIC) with support in part from the National Endowment for the Humanities (NEH).
